

WayFinder 24/7 Night Light - Installation Instructions

Parts List

- 1 front cover
- 1 cover mounting screw for standard face plate; 2 for decora face plate
- 1 night light frame
- 2 fastening screws

Caution: Turn off electrical power to the receptacle or light switch before starting

- Remove cover plate from the existing electrical receptacle or light switch.
- Remove the electrical receptacle or light switch, being careful not to disconnect the black and white wires from the screw terminals located on the receptacle or light switch.
- Carefully feed the electrical receptacle or light switch through the cavity of the night light frame.
- Connect one of the blue wires to the screw terminal located on one side of the electrical receptacle or light switch.
- Connect the other blue wire to the screw terminal located on the opposite side of the previous blue wire connection.
- Connect the receptacle or light switch through the night light frame to the outlet box using the screws supplied. Do not over tighten.
- Align the front cover over the receptacle or light switch and night light frame and secure using the screw(s) supplied.
- Turn power back on.
